# CHINTHA SANJEEWANEE SENEVIRATHNE

## **Automotive Design Engineer, Oil color painter on a canvas**

Combining the emotional resonance of 21st-century Impressionists with the lavish color palette of Expressionism, Chintha Senevirathne unique style has come to be known as "Open Impressionism." Her paintings appear in Russian universities, Diplomatic missions' curriculums around the world, Chintha is inspiring a new love for impressionism in the contemporary art world.

Chintha Sanjeewanee has been painting in oils since she was 8 years old. As a artist, she worked at a mural studio creating 40-foot-tall paintings on canvas, while selling art commissions on the side. After getting a BSc & MSc degree in Automotive Design Engineering from Tula State University In Russia, Chintha became a Tourism sector specialist in her country.

Inspired by the colorful scenery she saw in Russia, she decided to paint one painting every week. She was the first Astro painting artist in Sri Lanka.

Chintha Sanjeewanee's style is known as "Open Impressionism". Many collectors eagerly anticipate her work and she has become an iconic, driving force in the rebirth of contemporary impressionism.

She is an Automotive designer and a consultant for design related projects, or for project concepts. An Engineering specialist at a Designer position to revolutionize the design of standard & luxurious vehicles and she is always looking for related projects and Designs. Chintha is Proficient in working with CAD /3D MAX and other related software.

She is having Outstanding creative, Engineering, and organizational skills & as a Professional artist with talents and creativity that cover a wide realm of art forms including painting, Drawings & graphics.

## EDUCATION
